| - Food Problems | 8 votes |
| - Access to Laptops | 8 votes |
| - Unhealthy Living Environments | 7 votes |
| - Rights | 7 votes |

The Idea we co-designed with the youth in Walvis Bay, was aimed to sensitize the community towards the homeless living within the Walvis Bay area. They had identified that there was a large number of homeless people and that they faced a lot of problems with regards to living area, and access to the basic needs of any human being.

What we later understood, was
that our personas didn't have
access to a mobile phone or
laptop.

?

HOMELESS APP

HOMELESS APP

A Game about the life of a homeless person, so that people learn to understand the problems they face.

An Interactive Movie that we can watch about the life of a homeless person.

An App with Tips and Advice, about living a better life on the streets with daily challenges so that they can complete them and feel a sense of success.

A Talent show for the homeless to encourage them.

App/Game to simulate the life of a homeless person so that we learn to understand their life better.

A Digital Story book about the life of a homeless person so that people can learn to empathies and understand the things a homeless person experience.
